Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments:

Examiner mentioned to applicant that a summary was not provided. Applicant disclosed that his higher authority does not like to include the summary, and will probably not add one when the case is allowed.

The following specification problems were discussed:

Reference characters "114" in the specification [00025] and "118" in Fig. 1 have both been used to designate supplemental vertices.

Reference characters "133" in the specification [00031] and "144" in Fig. 2 have both been used to designate a rasterizer engine.

Reference characters "310" in the specification [00045] and "320" in Fig. 7 have both been used to designate the viewable region.

Reference characters "318" in the specification [00045] and "328" in Fig. 7 have both been used to designate newly generated triangles.

Reference characters "102" in the specification [00046] and "104" in Fig. 8 have both been used to designate the vertex shader.

Reference character "304" in the specification [00044] has been used to designate both vertex and clip ID.

First line on page 6 has a double period.

Examiner mentioned deleting the second "the" from the second line on page 6.

Examiner mentioned "a" should be "as" on page 14, [00042], third line.

Applicant took into consideration the above problems and agreed to call back with amendments.
